

## **American Pipe and Supply Announces Opening of New Facility in Nashville**

*Expansion represents expanded inventory offerings for Birmingham-based supplier*

Birmingham, Alabama – American Pipe and Supply, a Birmingham-based distributor of pipes, valves, fittings and plumbing supplies, fire sprinkler supplies and underground utility products, announces the opening of its new location in the Nashville area.

The new larger facility, located at 317 Fesslers Lane, allows for expanded inventory offerings and will provide more of the recognized brands and products that their customers want and expect in piping, plumbing, and fire protection materials. This new location will have increased parking and easier access in addition to a larger product assortment. The facility includes a 5 acre pipe yard and expanded warehouse storage capabilities.

American Pipe will continue to provide customers exceptional sales, service and delivery and the top piping, plumbing, and fire protection supplies they need. The new location will offer an *Express Will Call* service that will enable customers to pick up previously ordered items in an expedited manner.

“We’re excited to be opening a new business location in a great area like Nashville,” said John Howe, CEO of American Pipe and Supply. “The company has experienced significant growth and our Nashville area customers will immediately benefit from this new expanded location and services.”

### **About American Pipe and Supply**
